Digital Photography
Marquee, magic wand and lasso tools

EQ: How do you use the marquee and magnetic lasso tools in Adobe PhotoShop CS3?

Obj: The learner will demonstrate knowledge and technical understanding of the rectangular and elliptical marquee, magic wand, lasso, and magnetic lasso tools in Adobe PhotoShop CS2.

Procedure: Modeling from the ENO board, students will:
1. Open Adobe PhotoShop at work station. Go to File > Open. Find your name on the "**U:**" drive. Create a New Folder, and label it "**Digital Photo.**" All work for this class must be saved within this folder. Open this new **Digital Photo** folder, create another new folder inside, and label it "**Marquee.**"
2. Log onto dwphotoshop.com website and upload and label the photos in Working with Selections 1 into the Marquee folder. Follow the directions of the handout to complete the project.
3. Create another new folder inside the Digital Photo folder and label it Magnetic Lasso. Upload the photo in Working with Selections 3 into the Magnetic Lasso folder. Follow the directions of the handout to complete the project.

Materials: PhotoShop CS3, Internet, Working with Selections 1 & 3 uploads and worksheets

Terminology: rectangular and elliptical marquee, magic wand, lasso and magnetic lasso tools
