

Technology Update  
Mrs Siegrist

For 2nd marking period, I was able begin a google classroom for 3 of my 6 classes. (1 dance, 1 intro to PA, 1 Adv PA) Each class was given a different task that involved finding and posting video about a subject we were studying and then commenting on the different videos that had been posted. Since this is new to me, I wanted to try it out with just a few classes so I could make sure I understood how it worked. It would help if I had access to computers in my class every day.
