

Technology Lesson #2: "Govizzle" (Jennifer Nemiroff)

- What is Govizzle?
 - Vizzle is an all-in-one digital resource center for special educators.
- Played on any device or computer from any location, Vizzle's multipurpose software allows educators to:
 - Search a peer-reviewed library of almost 10,000 interactive, visual preK-12 lessons on any subject using Common Core/standards keywords.
 - Modify any lesson they find to individualize for each child in a few clicks.
 - Create a lesson of their own on any Common Core/Standard with fun, visual reinforcers.
 - Build playlists of lessons for deeper practice of any standard.
 - Collect automated data through reporting tools that allow for simple data-driven instruction.
 - Access behavioral and social supports such as visual stories, schedules, timers and token boards.
- How do I use GoVizzle?
 - Log onto www.Govizzle.com
 - Sign up for a 30 day free trial or sign up for an account.
 - In upper-left hand corner, search for any topic (i.e. money, mythology, states of matter, etc.)
 - Choose different games, stories, or activities.
 - On bottom-left hand corner, create goals and track data.
 - Add students and set criteria
