

## Interactive Review Games

By "SuperTeacherTools"

- Create the following games to use in your classroom.
  - "Jeopardy"
  - "Who Wants to be a Millionaire"
  - "Speed Match" (good practice for click and drag)
- Go to: [www.superteachertools.net](http://www.superteachertools.net) to register.
- Choose one of the game options to create a new game.
- Follow directions to fill in questions and answers.
- When game is completed, click on "Create Game File" at the bottom of the page. This will save your game for later use.
- If you have difficulty saving your game files, the game is automatically saved in website's "Game Library".
- Games can be played on enoboard or on individual computers.
- My US History I class played "Who Wants to Be a Millionaire" on the enoboard and "Speed Match" in Google classroom.
