Attachments: Cluster 3 worksheet.docx

Hi,

Attached is a document I created using the snipe tool. This is evidence of my second quarter using technology.

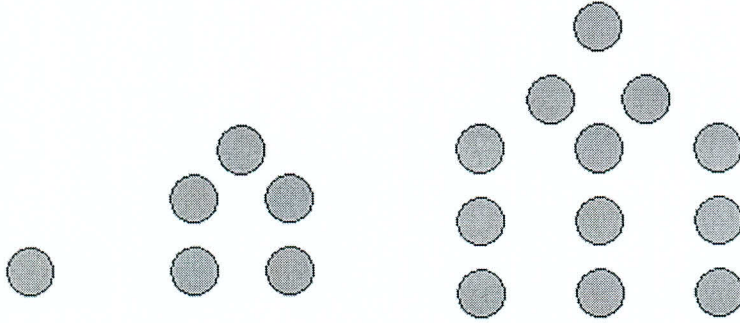

Nadine

The following is a pattern

1. Following the same pattern, sketch stage 6. What is total number of dots?
2. Explain the process you would use to determine the number of dots to make stage 9?
3. Following the same pattern, write a formula or describe a process to determine the number of dots in the n th stage.
4. If you had 64 dots, how many dots would be at bottom of the design? Show how you found answer.

For the following pattern:

1. Following the same pattern, sketch stage 6. What is total number of dots?
2. Explain the process you would use to determine the number of dots to make stage 9?
3. Following the same pattern, write a formula or describe a process to determine the number of dots in the n th stage.
4. If you had 64 dots, how many dots would be at bottom of the design? Show how you found answer.
