Subject: RE: 2nd Marking Period Technology Lesson

Sherie,

Sorry for the delay, I kept "refining" this technology!

Many students like my practice of "Stock Market Monday", where students find out how much their average has gone up, or down, from the previous week, just like a stock report.

Now, on our class website, there is a link that does just that.

Click onto the link below and see for yourself:

You may send your above mentioned lesson electronically or hard copy, whichever is easier.
